

PROVIDER BULLETIN

WASHINGTON VACCINE ASSOCIATION

November 4, 2022

Dear Childhood Vaccine Program Participating Provider:

Effective January 1, 2023, Priorix™ and Vaxneuvance™ vaccines will become available through the Washington State Childhood Vaccine Program and have been added to the [WVA's Vaccine Assessment Grid](#). See the code changes below. These new vaccines are found on pages 1 and 2 in the [WVA Vaccine Assessment Grid](#) and are ordered via the IIS ordering system.

Starting January 1, 2023, these vaccines should be billed to commercial insurance payers and third-party administrators using the WVA's dosage-based assessment (DBA) process for patients under the age of 19. **As a provider, you will need to update your billing systems to include these vaccines when submitting DBAs.**

Effective January 1, 2023, the following vaccines have been added to the WVA's Vaccine Assessment Grid:

NAME	PURPOSE	CVC CODE	CPT CODE	NDC CODE/ PACKAGING	WVA ASSESSMENT AMOUNT
Priorix	MMR	CVX 03	90707	58160-0824-15 (10 pack – 1 dose vial)	\$24.14
Vaxneuvance™	PCV 15	CVX 215	90671	00006-4329-03 (10 pack – 1 dose syringe)	\$165.52

For more information regarding the DBA process for providers, please see the [WVA Private Insurance Assessment Billing Provider Guide](#), the WVA website www.wavaccine.org, or send an email to info@wavaccine.org.

Thank you for your continued support of the WVA.

Best regards,

Julia Zell, Esq.
Executive Director

**Update your
billing system!**
