**WVA Meeting of the Board of Directors
June 15, 2023
Proposed Form of Votes**

The following are suggested forms of votes only. They are intended to be an aid to facilitate work by individual directors. All Board policy and the final form of votes is exclusively the province of the Board acting collectively as the Board of Directors.

Items under Agenda Section 2:

VOTED: To approve the minutes of the April 13, 2023 Board Meeting.

[To approve the minutes of the April 13, 2023 Board Meeting.]

**Washington Vaccine Association
Board of Directors Meeting
April 13, 2023; 2:00-4:00 p.m. (PT)**

I. Attendance. Due to COVID-19, this meeting was conducted solely by webinar. Participating in all or part of the meeting were the following individuals:

<u>Directors</u>	20	<u>WVA</u>
John Dunn, MPH, MDKaiser Permanente, <i>Chair</i>	21	Julia Walter Zell, MA., Esq., Executive Director
Beth Harvey, MD, South Sound Pediatrics, <i>Vice Chair</i>	22	
Ed Marcuse, MD, MPH, FPIDS, University of	23	<u>Helms & Company, Inc.</u>
Washington, <i>Secretary</i>	24	Patrick Miller, MPH, WVA, Administrative Director
John Soback, MBA, MDRegence Blue Shield, <i>Treasurer</i>	25	Leslie Walker, CPA, Mason+Rich, PA
Helen Chea, MD, Molina	26	
Jason Farber, Esq., Davis Wright Tremaine LLP	27	<u>Others</u>
Kara Manley, United Healthcare	28	Jamilia Sherls-Jones, Washington Department of
Randy Parker, Northwest Carpenters Trust	29	Health
Michele Roberts, MPH, MCHES, Washington Department	30	Janel Jorgenson, Washington Department of Health
of Health	31	Susan Comers, Aetna

II. Summary of Actions Taken and/or Recommended

Actions Taken (votes adopted)

- i. To approve the minutes of the February 23, 2023, Board Meeting
- ii. To approve the FY24 Administrative Budget
- iii. To approve the FY24 Assessment Grid
- iv. To ratify CliftonLarsonAllen, LLP as the FY22-23 Auditor

III. Minutes

Welcome and Introductions

Dr. Dunn called the meeting to order at 2:02 p.m. Ms. Zell announced that the meeting would be recorded for the benefit of the minute taker, to be deleted once the minutes are approved.

Consent Calendar

Dr. Dunn asked for a motion to approve the minutes. Upon motion duly made and seconded, it was unanimously

VOTED: To approve the minutes of the February 23, 2023, Board Meeting.

IV. Financial Update

Financial Statements

Mr. Miller briefly reviewed the February 2023, unaudited financial statements. Total assets for the WVA are approximately \$59.6 million. In terms of planned cash, the WVA is approximately \$2.59 million over projections, which he attributed to the fund source split. As of the end of February 2023, the WVA's administrative budget was ahead of budget by \$236,000 due primarily to lower legal fees and the deferral of the new hire and associated costs.

Investments

Mr. Miller reported that the most recent Morgan Stanley investment statement (as of March 31, 2023) is included in the meeting packet. Ms. Zell reported that the WVA remains in a strong cash position with approximately \$48.5 million in its ladder bond and CD portfolio. She reported that there is an opportunity to increase the WVA investment yields by reinvesting some funds from bonds that are coming due. She noted that she and the Helms team would be meeting to consider various possibilities and would report back to the Finance Committee and Board later in the year.

FY24 Administrative Budget and FY24 Assessment Grid

Mr. Miller stated that the FY24 proposed administrative budget is part of the FY24 assessment grid (Grid) setting process. Once the Grid is finalized by the Operation Committee, the WVA team will distribute both electronic and printed Grids to WVA stakeholders.

Mr. Miller provided an overview of the rate setting process and timeline for producing the proposed FY24 Grid. The process includes a combination of the administrative budget and two-year vaccine purchase projections received from the Washington Department of Health (DOH). The goals for the FY24 model include providing multi-year grid stability and maintenance of cash and reserves based on Board-approved goal. The reserves ensure the ability to add new vaccines, including the upcoming COVID vaccines.

Mr. Miller provided an overview of the proposed budget of \$2.195 million with an assumed 3% increase in FY25 and FY26. He noted that changes to the budget from FY23 to FY24 include a nine percent increase in processing costs, including the renegotiation of the Helms contract, a 16% increase in staff costs due to hiring another part-time employee, a 14% increase in provider and payer education, a 3% decrease in the overall administrative costs, and a 36% decrease in discretionary expenditures. Overall, the proposed FY24 budget reflects an increase of approximately six percent from the FY23 budget.

Mr. Miller noted that the model reflects a board goal to reduce end of FY cash balances. Notable FY24 model projection assumptions included an adjustment to the fund source split in CY23; the pandemic impact on vaccine utilization; changing vaccine presentations; and new vaccines. Mr. Miller stated that there is an expectation that COVID vaccine commercialization will occur in Fall 2023 once the US Centers for Disease Control and Prevention (CDC) issues guidance. Mr. Miller reviewed the cascading stakeholder communications that will occur once the Grid is approved, including electronic and physical mailings to providers, payers, and other stakeholders. Mr. Miller reported that the FY24 Grid is now organized by vaccine, and while the WVA does not yet have Prevnar 20 CPT and NDC codes, a proxy amount has been added to the Grid. Ms. Zell reiterated that multi-year stability in the system is the main goal of the current rate setting process. Committee discussion.

Dr. Dunn asked for a motion to approve the FY24 administrative budget. Upon motion duly made and seconded, it was unanimously

VOTED: To approve the FY24 Administrative Budget

Dr. Dunn asked for a motion to approve the changes to the FY24 Assessment Grid. Upon motion duly made and seconded, it was unanimously

VOTED: To approve the FY24 Assessment Grid

Annual Auditor Engagement

Ms. Zell reported that the Finance Committee approved CliftonLarsonAllen LLP's (CLA) master services agreement and an accompanying statement of work for the FY22-23 audit. She reminded the group that CLA has provided auditing services to the WVA, historically, and that the Finance Committee thought it wise to stay with CLA given the complexity of onboarding a new firm. Dr. Dunn asked for a motion to ratify CLA as the FY22-23 auditor. Upon motion duly made and seconded, it was unanimously

VOTED: To ratify CliftonLarsonAllen, LLP as the FY22-23 Auditor

V. DOH UpdatesCOVID-19

Dr. Sherls-Jones reminded the Board that the Public Health Emergency (PHE) ends on May 11. All standing orders related to the PHE from the DOH will end at that time. She summarized the impact and asked for partners support in DOH efforts. She then shared several clinical updates regarding COVID vaccines. Dr. Sherls-Jones reported that the DOH is undergoing an infrastructure review process that will determine where COVID related bodies of work will be integrated longer term within the DOH.

School Age Immunization

Dr. Sherls-Jones shared that on March 8, 2023, she and a DOH consultant met with the State Board of Health to review immunization requirements for schools and child care centers. This presentation included state-gathered data regarding decreased immunization rates which are attributed to the pandemic and other factors. The DOH saw some absolute reductions in vaccination coverage rates between December 2018 and December 2022 that were most noticeable for the 11 – 12-year-old age group, including Tdap and HPV.

Influenza Immunization

Dr. Sherls-Jones shared that the Child Vaccine Program has distributed 435,320 doses of influenza vaccine to participating providers this season, but that total distribution is lower than in previous years. The DOH will work with partners on communication initiatives to attempt to increase these rates.

Department of Defense (DOD) Data Sharing

Dr. Sherls-Jones reported that the DOH is now piloting data sharing with the DOD and is the first and only state piloting this data sharing. Several providers identified this as an important project that will help their practices as they have been unable to gather health records from patients that had been seen at military treatment facilities.

Washington State Immunization Summit

Dr. Sherls-Jones shared that the 2023 Washington State Immunization Summit will be held on May 25 in Tacoma, with options to attend in person or virtually. If interested, registration information is available at <https://www.eventbrite.com/e/washington-state-immunization-summit-registration-597806383987>.

VI. ED/AD Updates

Quarterly Goals Discussion

As a follow-up to the conversation begun in February, Ms. Zell provided an update on the progress of restructuring the quarterly goals to remove operational activities. Mr. Miller provided an overview of the proposed monthly reporting restructuring to include KPIs, a high-profile project status, and an activity calendar. Dr. Marcuse and Dr. Dunn expressed enthusiasm in moving to a more visual model. Ms. Zell reported that a final proposal will be presented at the June Board retreat.

Provider Engagement and Improvement Plans

Mr. Miller previewed a proposed provider billing improvement plan which details steps to address provider infractions. The goal of this process is to hold providers accountable for meeting WVA assessment obligations. Mr. Miller noted that there is an established process in partnership with the DOH that Ms. White manages for onboarding new providers to the billing requirements. Ms. Zell explained that the WVA and DOH partnership in this area is important because the WVA does not have statutory compliance oversight authority for providers as they do with payers; for providers, the authority rests with the DOH. Ms. Zell also noted that the capacity for provider outreach will increase when the WVA Stakeholder Provider Liaison position is filled, which is anticipated by June 2023. Dr. Sherls-Jones raised a question around established limitations for the number of times a provider could be cited with an infraction. Mr. Miller noted that there are no established limitations but continued conversation and guidance from the DOH should be explored. Ms. Zell reiterated that the authority rests with the DOH, however, WVA could provide a recommendation for the DOH to consider. Ms. Manley recommended speaking with leadership at provider offices that are out of compliance early on in the investigation process.

Board Development

Ms. Zell provided an update on the planning of the June in-person board retreat. The location is tentatively the Perkins-Coie offices. Ms. Zell asked the Board to think about their respective contributions to the WVA and the ways they would like to participate in the organization going forward. No additional agenda items were suggested for the June agenda.

WVA Information Security

Ms. Zell reported that the WVA is reviewing internal information security processes and related information to assure that data used within the WVA is secure. The WVA had some difficulty in 2023 renewing its cyber liability insurance policy because the organization lacks a compliance officer and does not directly own the data systems in use. Mr. Miller added that obtaining cyber insurance is generally becoming more difficult and expensive due to the large

number of breaches, ransomware, and denial of service attacks being perpetrated on the healthcare industry. He stated that the WVA has controls in place to assure PHI is secured and that the WVA team is properly trained. He noted that the organization will be exploring the implementation of endpoint user detection and monitoring in the next year.

VII. Public Comments

No public comments.

VIII. Executive Session - Confidential.

IX. Closing

With no further business before the Board, Dr. Dunn closed the meeting at 3:55 PT.

Washington Vaccine Association

Notes to Financial Statements

For the Ten Months Ended April 30, 2023

Balance Sheet

Lines 2 and 4. Cash decreased in April by approximately \$970,000. Total cash and investments at month end are approximately \$46 million as compared to the budgeted cash position of \$48 million. The time-lag between the date of service and the receipt of payment has been considered when projecting cash reserves for FY2023.

Line 6. The Prepaid Vaccine amount includes the amount requested by the Washington Department of Health (DOH) for the May 2023 replenishment of vaccines. The amount includes the administrative fee of 1.4% which equaled \$86,159 included in the request.

Line 5. Members Estimated Collectible Assessments reflects the value of vaccine funding provided to the DOH for the purchase of vaccines for which the Association expects to receive an assessment payment.

Profit and Loss

Line 2. The amount reported as Assessments includes all assessments received in the month of April. The assessments are tracked in the accounting system using the procedure code and date of service supplied by the provider's remittance advice. While it is assumed that the provider utilized a vaccine that was purchased by the Department of Health in either the corresponding month or a prior month(s), there are too many variables in the purchasing process, the supply chain, and the utilization driving the remittance to provide certainty.

Line 6. The amount reported as 2% Waste is an estimate that was recorded through a journal entry. This estimate will be refined as we continue to process and track the amount of collectible assessments remaining from each DOH funding request. The amount remaining would likely represent vaccines that were not administered and would be considered waste. This will take several months of data before we are able to provide a more accurate estimate and therefore the 2% Waste estimate will continue to be used for the foreseeable future.

Line 7. The amount reported in March as Price Variance and Denials is the actual total of variances and denials identified through the lockbox transactions processed through OrboGraph.

Line 8. The DOH replenishment is the actual "cost" of the vaccines that are associated with the Assessments received in May.

Line 10. The amount reported as DOH Cost Recovery Admin Charge is the amount requested by the DOH for administrative expenses incurred in March. It was paid with the May 2023 replenishment of vaccines.

Other

Based upon a review of detailed assessment remittance data, the Association at times receives both over- and under-payments for remittances. Overpayments are repaid through the refunds process, through balance forward remittances, or through a separate, specific analysis. Utilizing the assessment remittance database, the Association has been able to identify several instances whereby a payer has been incorrectly denying or underpaying assessments for a variety of reasons. The Association's compliance efforts work with payers to resolve these discrepancies and may result in additional assessment revenue or refunds attributable to the current fiscal year that may or may not be related to the current fiscal year.

March 2023

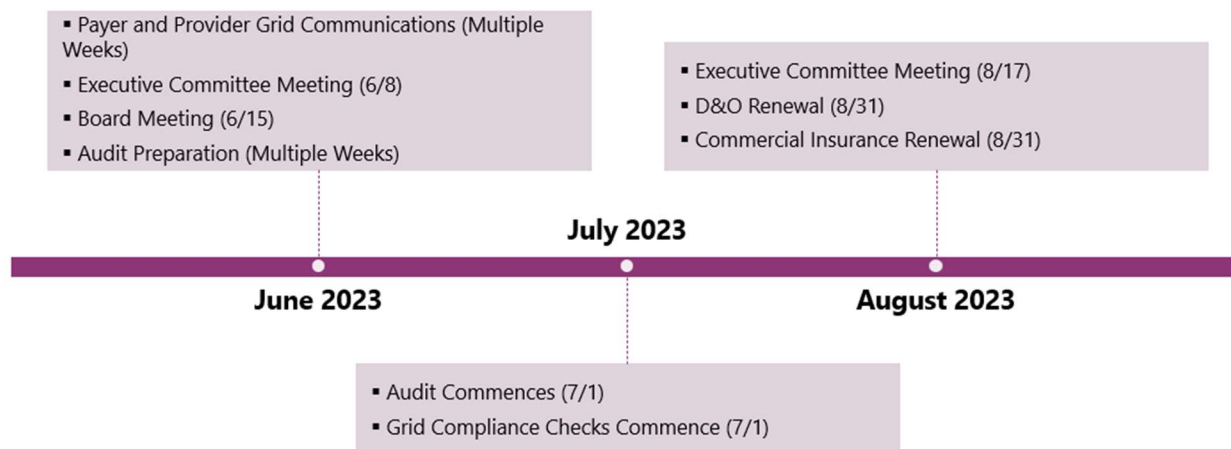

Julia Zell, Executive Director

Patrick Miller, Administrative Director

SUMMARY UPDATES¹

- The July 1 Assessment Grid was approved by the Operations Committee on April 25.
- Work continues to prepare for the July 1 Assessment Grid change, including mailings to 500+ payer contacts and 3,200+ provider contacts.
- Payer and provider communications were re-designed in a newsletter format for readability, and a specific prescriber communication was developed.
- The stakeholder relations position search is in progress and several candidates have been identified for interviews. Candidate recommendations will be presented to the Executive Committee in June.
- The Vaccine Committee met on April 27 and discussed several public health matters including progress on HPV at 9, providers' decreased flu vaccine orders, and the expected licensure of PCV20.

ACTIVITY CALENDAR – 90 DAYS

HIGH PROFILE PROJECT STATUS

TASKS	MAY	JUNE	JULY	AUGUST	SEPTEMBER	OCTOBER
July 1 Grid Updates		On Schedule				
July 1 Grid Communications		On Schedule				
July 1 Grid Compliance Checks			Not Started			
Audit Prep / Audit			Not Started			
Stakeholder Liaison Hire		On Schedule				

¹ Please note that updates pertain to the month the report is sent, while the data relate to the prior month ended.

FINANCE

1. Financial Statements and Investments.

- The WVA continues to remain in a solid cash position with adequate reserves while simultaneously achieving reserve reduction targets. **Figure 1** shows a YTD variance of **(\$2.59M)** at the end of March between expected cash (gray bar) and actual cash (purple bar) received. There are multiple variables driving these reductions in cash including: a multi-year level Vaccine Assessment Grid, a change in the fund source split, and reduced vaccine uptake.

FIGURE 1: FY2023 Planned and Actual Cash and Variance

FIGURE 2: Cash Balances March 2022 - March 2023

Figure 2 reflects the fluctuations between beginning-of-month and end-of-month cash balances. For the most recent three months, the ending monthly balance was less than the beginning monthly balance.
