*Indicates agenda item attached
I. Attendance. This meeting was conducted solely by webinar. Participating in all or part of the meeting were the following individuals:
Directors:
John Dunn, MD, Kaiser Permanente, Chair
Beth Harvey, MD, South Sound Pediatrics, Vice
Chair
Ed Marcuse, MD, Emeritus Professor of Pediatrics,
Secretary
John Sobeck, MD, Regence, Treasurer

WVA:
Julia Walter Zell, MA., Esq., Executive Director
Helms \& Company, Inc.:
Patrick Miller, MPH, WVA Administrative Director
Ashley Ithal, MPH, WVA Program Support
Others:
Anne Redman, Esq., Perkins Coie, Outside Counsel

## II. Summary of Actions Taken and/or Recommended

Actions Taken (votes adopted)
i. To approve February 16, 2023 meeting minutes.
III. Minutes

Welcome \& Introduction
Dr. Dunn called the meeting to order at 2:35 p.m. Ms. Zell provided notice of recording.

## Calendar Consent Items

After hearing no comments, Dr. Dunn asked for a motion to approve the minutes. Upon motion duly made and seconded, it was unanimously

VOTED: To approve February 16, 2023 meeting minutes.

## Current Financial Position

Mr. Miller provided a summary of the unaudited financials through April 2023. He stated the May 2023 draft financials are in progress and will be available early next week. In the current FY, cash has been reduced, as planned, by $\$ 9.4 \mathrm{M}$. The expectation is that by the end of the FY, cash will have been reduced by between $\$ 10-$ 11 M , which is within the target range. Administrative expenses are approximately $\$ 240 \mathrm{~K}$ below budget; however, end of fiscal year expenses, (e.g., payer and provider mailings), are expected to modestly bring this figure down.

Discussion commenced regarding cash flow unpredictability. Mr. Miller reported that while the WVA's current cash levels are $\sim \$ 3$ million below projections, there are ample reserves for vaccine funding activities. By maintaining the same Assessment Grid amounts for the past three years, the historic over-collections have leveled out. Additionally, the fund source split changes that occurred in January 2023 were not part of last April's projection packet as the WA Department of Health (DOH) had not yet completed their fund source split analysis.

Ms. Zell reported that Morgan Stanley will attend a portion of the Board meeting next week to discuss the investment portfolio with members. Ms. Zell added that the WVA will continue to move cash weekly from KeyBank to Morgan Stanley in between vaccine fund transfers to take advantage of higher interest rates. Ms. Zell noted that instead of keeping available funds in the bond portfolio, the WVA has been utilizing the money market account which is "ultra liquid" and has return rates above $4 \%$. Dr. Marcuse commented that he thinks the Board and Finance Committee should take another look at the reserve targets given the instability in the
healthcare market and vaccine world. He advised that there may continue to be vaccine developments that could impact WVA funding needs.

## FY2023 (2022-23) Audit Process

Ms. Zell provided an update on the upcoming audit by CliftonLarsonAllen, LLP. The individual conducting the audit will be different from previous years despite it being the same organization. Next year there will potentially be an IT security component to the audit due to changing audit standards, which could increase the cost of the audit. The audited financial statements should be ready for the Finance Committee in September 2023. Mr. Miller added that it should be a smooth process.

## Quarterly Board Reporting Update

Ms. Zell provided an overview of a draft of the quarterly goals status report and requested general feedback from the Committee prior to seeking the Board's final approval. Mr. Miller added that the goal was to provide a cleaner report with more visuals and less content so it would take less time to review. Dr. Dunn responded that he liked the simple overall structure of the draft. Dr. Marcuse asked if the graphics could be more accessible for those with black and white printers. Ms. Zell agreed to take those comments and others into consideration when creating the next draft.

Final Candidate Process
Ms. Zell provided an update on finalists for the stakeholder relations position. Dr. Marcuse noted that he has confidence in Ms. Zell and Mr. Miller making the hiring decision. Dr. Harvey offered to provide due diligence in speaking to final candidates regarding qualifications and background. Ms. Zell will distribute finalist resumes to Executive Committee members.

## IV. Executive Session

On file with counsel.

## V. Closing

The meeting concluded at $3: 32$ p.m.

# Washington Vaccine Association 

Notes to Financial Statements
For the Twelve Months Ended June 30, 2023

## Balance Sheet

Lines 2 and 4. Cash decreased in June by approximately $\$ 524,000$. Total cash and investments at month end are approximately $\$ 44.5$ million as compared to the budgeted cash position of $\$ 46.2$ million. The time-lag between the date of service and the receipt of payment has been considered when projecting cash reserves for FY2023.

Line 6. The Prepaid Vaccine amount includes the amount requested by the Washington Department of Health (DOH) for the July 2023 replenishment of vaccines. The amount includes the administrative fee of $1.4 \%$ which equaled $\$ 103,973$ included in the request.

Line 5. Members Estimated Collectible Assessments reflects the value of vaccine funding provided to the DOH for the purchase of vaccines for which the Association expects to receive an assessment payment.

## Profit and Loss

Line 2. The amount reported as Assessments includes all assessments received in the month of June. The assessments are tracked in the accounting system using the procedure code and date of service supplied by the provider's remittance advice. While it is assumed that the provider utilized a vaccine that was purchased by the Department of Health in either the corresponding month or a prior month(s), there are too many variables in the purchasing process, the supply chain, and the utilization driving the remittance to provide certainty.

Line 6. The amount reported as $2 \%$ Waste is an estimate that was recorded through a journal entry. This estimate will be refined as we continue to process and track the amount of collectible assessments remaining from each DOH funding request. The amount remaining would likely represent vaccines that were not administered and would be considered waste. This will take several months of data before we are able to provide a more accurate estimate and therefore the $2 \%$ Waste estimate will continue to be used for the foreseeable future.

Line 7. The amount reported in June as Price Variance and Denials is the actual total of variances and denials identified through the lockbox transactions processed through OrboGraph.

Line 8. The DOH replenishment is the actual "cost" of the vaccines that are associated with the Assessments received in June.

Line 10. The amount reported as DOH Cost Recovery Admin Charge is the amount requested by the DOH for administrative expenses incurred in June. It was paid with the July 2023 replenishment of vaccines.

## Other

Based upon a review of detailed assessment remittance data, the Association at times receives both over- and under-payments for remittances. Overpayments are repaid through the refunds process, through balance forward remittances, or through a separate, specific analysis. Utilizing the assessment remittance database, the Association has been able to identify several instances whereby a payer has been incorrectly denying or underpaying assessments for a variety of reasons. The Association's compliance efforts work with payers to resolve these discrepancies and may result in additional assessment revenue or refunds attributable to the current fiscal year that may or may not be related to the current fiscal year.
