

PAYER BULLETIN

September 14, 2023

Dear WVA Payer:

Effective **September 12, 2023**, COVID vaccines for commercially insured children (non-VFC) under the age of 19 are no longer be funded by the Federal government. They will be available to providers through the Childhood Vaccine Program’s (CVP) Immunization Information System (IIS) ordering platform and added to the [WVA Vaccine Assessment Grid](#) for billing purposes. **See fee schedule changes in the table below.**

Starting **September 14, 2023**, these vaccines should be billed to payers using the WVA’s dosage-based assessment (DBA) process for patients under the age of 19 covered by commercial insurance. **As a payer, you will need to update your adjudication fee schedules to include these vaccines to remit payment for the DBAs. The WVA Assessment Amount is the same for all COVID vaccines.**

For more information regarding the DBA process, please see the [WVA Health Insurer and TPA Compliance Guide](#), wavaccine.org, or compliance@wavaccine.org.

Thank you for your continued support of the WVA.

Best regards,

Julia Walter Zell, MA, Esq., Executive Director

**Update your
fee schedules!**
