

JULY 1, 2025 Assessment Grid Increases

Bulletin Date: May 1, 2025

Dear Childhood Vaccine Program (CVP) Provider:

**The 2025-26 Grid amounts are INCREASING from the current 2024-25 Grid amounts.
Changes Include: CPT Codes, NDC Codes, and Grid Amounts.**

The enclosed **2025-26 Vaccine Assessment Grid**, will be **effective between July 1, 2025 through June 30, 2026**, and is posted to the WVA's website in both PDF and Excel format (<https://wavaccine.org/assessment-grid/>). **As a CVP Provider, you are required to update your billing system.**

The **2025-26 Vaccine Assessment Grid** lists vaccines and immunizations, along with their CPT codes, that are included in Childhood Vaccination Program (CVP) and for which the dosage-based assessment (DBA) process is required. This applies to healthcare providers, insurance companies, and third-party administrators (TPAs). The Grid acts like a fee schedule. Providers are required to submit the DBA with the correct Grid amount based upon date of service. Properly submitted DBAs ensure that adequate funds are available to support the state's continued purchase of pediatric vaccines and immunizations for Washington children under age 19.

In addition to the **2025-26 Vaccine Assessment Grid**, please find enclosed WVA's **Private Insurance Assessment Billing Provider Guide**.

Should you have any questions, please contact us at info@wavaccine.org. We appreciate your support of the WVA.

Best regards,
