**Reminders:**

- The current WVA [Vaccine Assessment Grid](#) is in effect between July 1, 2025 through June 30, 2026, and is posted to the WVA’s website in both PDF and Excel format.
- The *Grid* lists vaccines and their corresponding CPT codes that are part of the dosage-based assessment (DBA) process for providers, health insurance carriers, and third-party administrators (TPAs). In effect, the *Grid* is the equivalent to a fee schedule. **Providers are required to properly complete the DBA process as part of their enrollment in Washington’s CVP.**
- The WVA’s [Private Insurance Assessment Billing Provider Guide](#), contains a checklist of items to ensure compliance with the WVA’s requirements.
- Should you have any questions or if you are not the correct contact within your organization to receive this information, please notify us at [compliance@wavaccine.org](mailto:compliance@wavaccine.org).

Best regards,
